

Masters by Research in Clinical Research (MRes) HEE/NIHR Clinical Academic Studentships

Are you an Allied Health Professional, Nurse, Midwife or Health Scientist?

Do you want to develop your Clinical Academic Research Career?

Coventry University is the only University in the West Midlands funded to offer these prestigious studentships from Health Education England (HEE) and the National Institute for Healthcare Research (NIHR).

With the support from our dedicated supervisors and access to the world-class research facilities we offer you a unique opportunity to further your career. Coventry University offers 10 full-time or part-time fully funded places to study a MRes in Clinical Research (course fees and salary backfill covered).

The MRes in Clinical Research programme will provide you with the advanced clinical research skills and tailored knowledge to prepare you for clinically based research in the 21st century.

To apply, an [Expression of Interest form must be completed and returned by 12pm on Monday 13 March 2017](#)

To request a form, or for further information on the Coventry University MRes programme, please contact Saleema Tai, Programme Administrator: saleema.tai@coventry.ac.uk
